Gemeenskapsveiligheid 14:30 Community Safety

Eskalierende misdaad in al sy fasette bring mee dat gemeenskappe hoofsaaklik op hulself aangewese is om hulself te beveilig deur middel van opleiding en gebeurlikheidsbeplanning om paraatheid op te skerp en uiteindelik geografiese gebiede te stabiliseer en te domineer. Watter individuele en/of kollektiewe opsies is daar om eie inisiatiewe, sisteme en strukture te skep wat in tye van noodweersituasies aangewend kan word ter wille van oorlewing en volhoubare voedselproduksie?

- Ian Cameron

Direkteur, Gemeenskapsveiligheid, Action Society

Escalating crime in all its facets brings about that communities primarily rely on themselves to ensure their own safety through training and contingency planning to sharpen preparedness and ultimately stabilise and dominate geographical areas. What individual and/or collective options are available to create their own initiatives, systems, and structures that can be utilised in emergencies for survival and sustainable food production?

- Ian Cameron

Director, Community Safety, Action Society

**Die impak van ekonomiese 15:40 The impact of economic
verval in Suid-Afrika decline in South Africa**

Toenemende armoede in Suid-Afrika lei tot eskalierende misdaad. Ekonomiese groei bly die langtermynoplossing vir armoede maar intussen is daar mense om ons wat daagliks gebuk gaan onder voedselgebrek en vanweë diskriminasie nie deur die staat gehelp word nie. Watter bydrae kan gemaak word om op 'n gestruktureerde wyse die nood te verlig terwyl 'n realistiese toekomsverwachting deur middel van opleiding, kreatiewe denke en deursettingsvermoë geskep word?

- Hannes Noëth

Direkteur, Helpende Hand

Increasing poverty in South Africa leads to escalating crime. Economic growth remains the long-term solution to poverty, but in the meantime, there are people among us who suffer from food shortages daily and are not assisted by the state due to discrimination. What contribution can be made to alleviate the crisis in a structured manner while creating a realistic future expectation through education, creative thinking, and perseverance?

- Hannes Noëth

Director, Helping Hand
